## MOBILE APPS – UPGNET MOBILE

The Mobile Apps Team is pleased to announce the launch of the mobile UPGnet website. This mobile site is formatted for mobile tablets and smart phones and allows Dealers to quickly access product and warranty information from their mobile device. This site can be used with either an Android or Apple based device.

To access UPGnet Mobile on your mobile device, go to: <http://m.upgnet.com> and log in with your normal UPGnet user name and password. If you do not currently have a UPGnet user name and password, contact Sylvain Dumont at 514-788-3467.

### UPGnet Mobile includes: Residential & Commercial Product Catalog with access to:

- Technical Guides
- Consumer Brochures
- Installation Instructions
- Submittal Drawings
- User Manuals
- Warranty Information
- Repair Parts Information

### Product Information Application - Enter a serial number or model number to:

- Lookup parts lists
- Check warranty status
- Display wiring diagrams

### ProficienTech Training Manuals

The 33" Modulating Gas Furnaces Diagnostic app is available for Apple devices, on the Apple App Store and for Android devices, within Mobile Device Central on the ProficienTECH site.

You must log on to the 33" Modulating Gas Furnaces Gen2 Diagnostic app with your UPGnet username and password. In order for this to work, you must already be enrolled in the ProficienTECH program via Liberties Plus, CCE, or subscribed to Liberties.
