S020   **AUGUST 2016**

ENERGY APPORTIONMENT TOUCH PANEL CONTROLLER UTY- DTGYZ1
SOFTWARE UPDATE L002

Source for this Bulletin
Japan Service Bulletin VRF-0144 issued August 22, 2016

Outline
Touch Panel Controller (TPC) may produce Error E17 that is due to the following combined conditions:

Conditions
1. Electricity Charge Apportionment (UTY-PTGXA) is installed.
2. A Single Split System Converter is connected to the same VRF network.

Example of Error 17 occur when using a single split system on VRF Network.
Error should not be displayed, because the Electricity Charge Apportionment (ECA) function is not available for single split systems.

* The calculation result of the ECA is not affected by the Error.
* All of the controlling functions on the TPC are not affected by the Error.
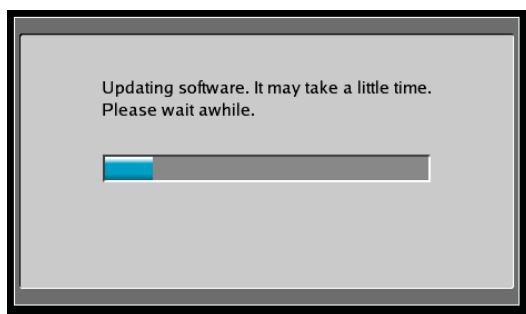

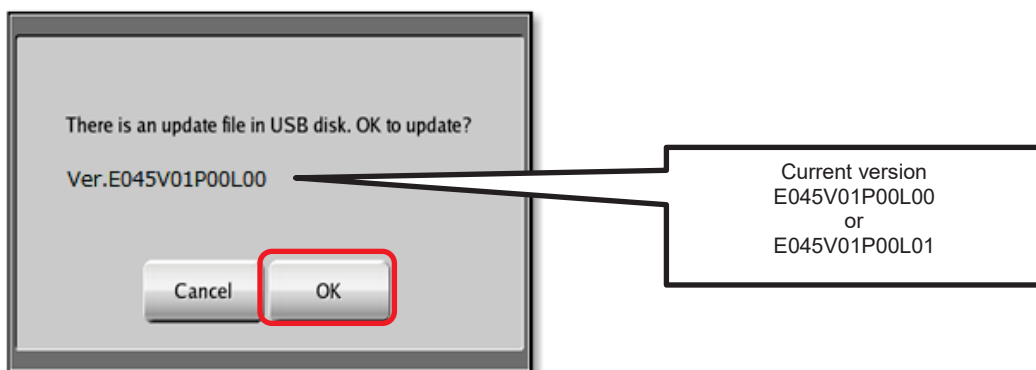

Applicable serial number
UTY-DTGYZ1: 2000001 -- 2000292

Updating the software
1. Download the file "gtktp_010002.rpm" from the Fujitsu Portal >> Downloads >> Touch Panel Controller with Internet Optional Software >>Energy Apportionment SOFTWARE UPDATE L002
2. Copy the file to a USB memory stick.
3. Plug the USB memory stick into the TPC while it is powered ON.
4. The update to the TPC will start automatically.
