**TO:** VänEE Distributors

**SUBJET:** Discontinued Products – A110H65RS & A130E65RS

Dear customer,

Please be advised the models listed below will be discontinued immediately. Pressures on the supply chain are forcing us to optimize the production of high-demand products of the AI Series. We have made the decision to discontinue the air exchanger models listed below and provide the compliant recommended replacements going forward.

All existing orders for a discontinued model should be cancelled and a new order placed for an update to the suggested replacement.
